

Halogens Declaration statement

Cardinal Components Inc. hereby declares that the components produced by us are halogen-free except for the items noted below:

OCXO Oscillators

The Definition on Halogen-free products are based in industry standard IEC (International Electrotechnical Commission) - Finalized Requirements of IEC 61249-2-21. Halogen-free products mean that they do not contain the following substances above the indicated maximum concentration values:

- 900 ppm maximum chlorine
- 900 ppm maximum bromine
- 1500 ppm maximum total chlorine and bromine

This statement is primarily based on information provided to us by the upstream suppliers of materials used to produce our products. The information may or may not be confirmed by 3rd party materials testing.
